Fig. 1. Formatted using OCS_Fig-Text, must be below the image, end with a period and add this if image is cited from a source: (Lifted from Author, Year).

Creating tables

Similar with figures, tables should be either on the top or bottom of the page. It must never be in-between paragraphs. Headings must be centered and if the contents of cells are numerals or with little text, you may center it. To format the text inside a table, use the OCS_Table-Text, while the table style can be found on Design > Custom, or the first style available.

Table 1. Formatted using the OCS_Table-Caption; must end with a period.

MATERIALS AND METHODS

Level 2 Title – Words Must Start in Uppercase

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Etiam a convallis ante. Suspendisse bibendum magna vitae sem tristique aliquam. In a nunc a ipsum lacinia posuere. Phasellus arcu magna, hendrerit vitae dui vel, tincidunt rutrum velit. Nulla venenatis enim eget mauris viverra, ac venenatis nunc molestie. Pellentesque non efficitur arcu. Commented [A4]: Guidelines in formatting tables:
• If the first column is a single letter or a number, it must be aligned center; else, align it to the left.
• If cells contain decimal numbers, align them according to decimal point.

Adding Equations

In general, formulae numbers are presented in brackets [] starting from 1 as shown below in the examples. Equations can be made through Insert > Symbol > Equation.

$$Rand\ (P_1, P_2) = \frac{R - E[R]}{M[R] - E[R]} \qquad [2]$$

where,

$$R = \sum_{ij} \binom{n_y}{2} \qquad [1]$$

$$E[R] = \frac{\sum_i \binom{n_i}{2} \sum_j \binom{n_i}{2}}{\binom{n}{2}} \qquad [3]$$

$$M[R] = \frac{1}{2} \left[\sum_i \binom{n_i}{2} + \sum_j \binom{n_i}{2} \right] \qquad [4]$$

n_{ij} : number of cases that appear in cluster in P_1 and in cluster j in P_2

n_i : number of data instances in the ith cluster in the resulting partition

n_j : number of data instances in the jth cluster in the class attribute

APPENDICES

Appendix 1. First Letter of Each Word is Capitalized.

The flow for creating appendices must be as follows: Text – Table – Figure. For the style of the body, use OCS_Body. You can use the formatting on the other parts of the manuscript. The only difference is the caption must be above the content even if it's a text, table of figure, similar with this sample appendices. Appendices must be on separate pages.
